ADDITIONAL INFORMATION

Projects:

GroceryGrab App - UI/UX Designer

- Designed an application that solves students problems when grocery shopping & money management. Integrated features like a meal planner that generates a shopping list & recipes based on the users preferences.
- Conducted user interviews on their grocery & money management experiences to user personas, journey maps, scenarios, mockups & storyboards.
- Created and tested low & high-fidelity with Adobe XD to improve functionality and design of the application.

Mozaic Dance Team Website/Music Producer:

- Designed a responsive website using Brackets for Mozaic Dance Team as well as creating music for the team using SoundTrap & Ableton Live
